Recent Computer Science graduate with a strong foundation in software development, algorithms, and data structures. Seeking to leverage technical skills in problem-solving and software engineering to contribute to innovative projects in a dynamic and growth-oriented environment.

EDUCATION

Franklin University – Columbus, OH - *Bachelor of Science in Computer Science* - December 2024

PROJECTS

Daily To-Do List App - *Technologies: HTML, CSS, JavaScript*

- Created a dynamic task manager allowing users to add, edit, delete, and complete tasks.
- Developed a **responsive design** using **CSS** and **Flexbox** for seamless cross-device functionality.
- Leveraged **DOM manipulation** and **JavaScript** for real-time task updates without page reloads.

Anime Tracker - *Technologies: HTML, CSS (Flexbox, Grid, Media Queries), JavaScript, Jikan API*

- Built an interactive app to search anime titles using the **Jikan API**, displaying detailed info like synopsis and air dates.
- Designed a **responsive, accessible UI** with **semantic HTML** and **media queries** for consistency across devices.
- Integrated **localStorage** to allow users to save and manage their **Watch List** without backend storage.
- Applied **asynchronous JavaScript** (fetch/async/await) with **error handling** to ensure smooth, reliable user experience.

Weather App - *Technologies: HTML, CSS, JavaScript, WeatherAPI*

- Developed a **weather dashboard** fetching real-time data from **WeatherAPI** based on user input.
- Utilized **DOM manipulation** to dynamically display current weather data (temp, conditions, wind speed, humidity).
- Implemented a **responsive UI** using **media queries** for a smooth experience across mobile, tablet, and desktop.
- Integrated **semantic HTML** and **accessible icons** for enhanced usability and clarity.

EXPERIENCE

Bill Brown Ford – Livonia, MI - *Lead Porter* - January 2024 - Current

- Organized the vehicle lot to streamline workflow, improve accessibility, and enhance the customer experience.
- Trained and mentored new staff on safety and handling procedures, contributing to a high-performing, efficient team.
- Collaborated with service staff to reduce vehicle delivery times and ensure smooth customer handovers.

Blackwell Ford – Livonia, MI - *Lead Porter* - January 2023 - January 2024

- Supervised a team to ensure smooth vehicle movement and organization, improving lot efficiency and customer satisfaction.
- Managed vehicle tracking and inventory, ensuring proper care, maintenance, and improved operational performance.
- Resolved customer issues related to vehicle availability and condition, demonstrating strong problem-solving and communication skills.

Imagine Design and Build – Northville, MI - *Construction Crew Member* - September 2020 - January 2023

- Built strong customer relationships through proactive problem-solving and addressing landscaping needs.
- Managed high-volume workloads by prioritizing tasks and organizing materials, ensuring project deadlines were met.
- Worked collaboratively within a team to deliver high-quality results on multiple simultaneous projects.

SKILLS

Languages & Tools: HTML5, CSS3, JavaScript (ES6+), Git, GitHub, REST APIs, Async/Await

Core Competencies: DOM Manipulation, Responsive Design, Semantic HTML, OOP, Data Structures & Algorithms, Team Collaboration
